Subject: Fiscal Impact of amendments to Rules concerning Construction/Demolition Waste and Certain Permitting Requirements at 329 IAC 10

Under IC 4-22-2-28, IDEM has estimated that the economic impact of the proposed amendments will be less than five hundred thousand dollars (\$500,000) on regulated entities. This rulemaking should have little or no economic effect on construction/demolition landfills regarding the acceptance of easily recognizable construction/demolition waste, or on any solid waste land disposal facilities regarding the changes to the permitting requirements. The economic impact analysis for this rule will not be submitted to the Office of Management and Budget.
